“ *Sue, Shirley and boys,
So sorry to hear of your loss. I still remember when my mom and dad, Angie and I drove to IL to stay with you guys. I want you to know that you and your family are in our thoughts and prayers. Cub is up with dad, Randy, looking down on us as our angels now. Our deepest sympathy.

“ *My condolences to the Fedor family. I worked with Frank in the early 70's while at Radius Machine and Tool. What a great tool and die maker he was back then, I can only imagine his skills in later life. Take care "Cubby".*

“ As a Pace driver, I had the honor of picking up Frank on several occasions and taking him to the machine shop. During the ride Frank and I talked about as many things as the short time allowed. I know we spent alot of time talking Cubs, and we both were extremely happy when they finally won it all. Once we got to the shop, Sue would be waiting to offer banana bread, coffee, or hand cream for my old wrinkled hands. You both knew how to get a drivers day off to a great start, and you always made me feel like I was doing you a favor. I wasn't doing you a favor, it was my pleasure. Good people are hard to come by, I thank you both for everything. My condolences to the entire Family. I will miss you Frank, thank you for being you.
