“ *Summers with my dad were always the best time of the year. He always was so fun to have around. Now summer is basically here and it just makes me so sad that I don't get to share this with him*

Sarah Dibbern - May 14, 2022 at 11:35 AM

“ *I miss him so much I'm in school rn and I'm having a hard time I know I'm gonna miss him for the rest of my life but right now it's just kinda hard I'm gonna get to ride his motorcycle soon when I turn 15 that's gonna be fun. Lot of good memories on that bike with him. I still love him even tho he did some horrible stuff to me and my family. I LOVE YOU DAD NO MATTER WHAT*

Nate D - April 11, 2022 at 02:50 PM

I don't care what anyone says my dad was a great guy. Sure what he did was crap but he was a real and loving dad. He was my best friend and now he's gone. I miss him more than anything. I'm having such a hard time right now and I wish he was still here.

“*To my Uncle, godfather, and friend: You will be missed, and I'm going to be a nerd again and paraphrase Aaron Freeman "... Remind [them] of the first law of thermodynamics; that no energy gets created in the universe, and none is destroyed. All your energy, every vibration, every Btu of heat, every wave of every particle remains in this world...All the photons that ever bounced off your face, all the particles whose paths were interrupted by your smile, by the touch of your hair, hundreds of trillions of particles, have raced off like children, their ways forever changed by you... Remind [them] how much of all our energy is given off as heat. The warmth that flowed through you in life is still here; still part of all that we are... your energy is still around. According to the law of the conservation of energy, not a bit of you is gone; you're just less orderly."*
